Thanks Sarah I understand.

One of things Gov requested in concurrence letter was for site schedule to be placed on the EPA website. I was asked about that and I couldn't locate. Hopefully it is something that can be put on EPA's website soon, but I understand how those website transitions are.

Hi Greg- because of EPA HQ's website transition (and difficulty for the public to access the website in the interim), we haven't posted the slides. I'd be happy to send the slides along to anyone who's interested, and it would be fine with us if NDEP would like to post them on your website. This website transition has been very messy and unfortunately we don't have any control over it in the Regional office. I'm eagerly awaiting the new website...

Let me know if you'd like the slides!

Best,

Sarah

Hi Sarah,

Is there a place on the Region 9 website for Anaconda where the most recent community meeting slides are posted?

Thanks,

Greg
